EDUCATION

Sahyadri College of Engineering and Management

Bachelor of Engineering in Computer Science – 8.14 CGPA

Gokhale Centenary College

PCMB – 79.8%

Dec 2022 – Jun 2026

Mangalore, Karnataka

Mar 2020 – May 2022

Ankola, Karnataka

TECHNICAL SUMMARY

Java: Good knowledge of OOP concepts such as Abstraction, Encapsulation, Polymorphism, and Inheritance. Practical experience with Strings, Exception Handling, Collections Framework, File Handling, Comparable, Comparator, Singleton Design Pattern, and JavaBean.

JDBC: Good understanding of JDBC architecture and loose coupling principles. Worked with Statement, PreparedStatement, CallableStatement, JDBC transactions, configuration files, and Stored Procedures.

SQL: Strong understanding of RDBMS concepts with hands-on experience in writing DDL, DML, and DQL queries, including joins and subqueries.

TECHNICAL SKILLS

Programming: Java, Python

Front-End: HTML, CSS, Javascript

Database: MySQL, MongoDB

Core Subjects: Operating Systems, Computer Networks, Cloud Computing

Tools: Github, Eclipse, Visual Studio Code

OS: Windows, Linux Basics

CERTIFICATION

Infosys Springboard

Core Java Programming Revisited

- Covered Java basics, OOP concepts, exception handling, arrays, and basic I/O.
- Implemented small programs demonstrating logic building and problem-solving in Java.

Java, J2EE & SQL

Completed Java, J2EE and SQL courses from Jspiders

Feb 2026

Mangalore, Karnataka

May 2026

Jspiders BTM Bangalore., Karnataka

PROJECTS

Restaurant Management System | *React.js, Express.js, MongoDB*

March 2025

- Built a Restaurant Management System with modules for orders, menu updates, and customer billing.
- Enhanced operational efficiency through real-time order processing and data management.

Insider Threat Detection using Learning Adaptive Neighbors (LAN)

Python, Machine Learning, Pandas, NumPy, Scikit-learn, CERT Dataset

Jan 2025

- Developed an insider threat detection system using the Learning Adaptive Neighbors (LAN) algorithm to identify malicious users from organizational activity logs.
- Processed and extracted behavioral features from the CERT insider threat dataset, including logon, file access, email, and device usage activities.
- Evaluated model performance using ROC-AUC and Precision-Recall metrics, enabling effective detection of anomalous user behavior.

ACHIEVEMENTS

Social Internship – Suvidha Foundation, Mangalore

- Contributed to community development initiatives by organizing awareness programs and social impact activities for underprivileged communities
